

To Amaro Peláez, Director General for Housing
From Aurora Roig, Head of the Observatori del Parc Residencial
Date 30 October 2026
Subject Proposal for the 2027 designation order (Article 6) and its annex

The 2027 order designates seven sections

Large holders will hold 25 per cent or more of the dwellings on 1 January 2027 in seven of the fourteen watch-list sections, and the order designates those seven: 0301401008, 0301402014, 4625001005, 4625002007, 4625011004, 4625011016 and 4625012009.

Section	Municipality, district	Share on 1 Jan 2027
4625011004	València, Poblats Marítims	33.3%
4625001005	València, Ciutat Vella	32.0%
4625002007	València, l'Eixample	29.3%
0301401008	Alacant, districte 1	28.0%
4625011016	València, Poblats Marítims	26.2%
4625012009	València, Camins al Grau	26.2%
0301402014	Alacant, districte 2	25.7%

The designated section closest to the line is **0301402014** (Alacant, districte 2), at **25.7%**, **0.7 points** above it. The undesignated section closest to the line is **4625001012** (València, Ciutat Vella), at **24.2%**, **0.8 points** below it. Both are walked month by month in the attached chart.

Against the 2026 order, 4625001012 and 4625002019 leave the list and 4625012009 joins it.

How the list was built, and where it differs from last year's method

Article 4 counts the dwellings large holders hold on 1 January of the programme year, so the list rests on holdings on a day that has not come yet. We started from the 30 June 2026 quarterly returns, conformed to the dwelling, which tie to Butlletí del Parc Residencial 2026/2 in all fourteen sections, and rolled every dwelling forward with the deeds executed and registered up to 30 September 2026. Sales notified in the returns and not yet executed were carried to their agreed buyer on their agreed date.

The exception is the sales the Ens Públic de Patrimoni Residencial has taken over under its first-offer right. Its budget execution to 30 September records each commitment under programme PPO, and every first-offer purchase it has completed so far (27) was executed 120 days after the commitment, never on the date the parties had notified, and four of them came before that date. We therefore treat each committed sale as passing to the agency 120 days after its commitment, and the agency, as a public body, is not a large holder (Article 2.1).

The register also lists four holders inscribed after 30 June that have lodged no return yet; their first is due with the third quarter. From inscription they are large holders under Article 2.1, and the deed extract shows what they own: Habitatges Cornisa SL (inscribed 17 September) holds 18 dwellings in 4625011016; Pòtic Residencial SL (inscribed 23 July) holds 6 dwellings in 4625013021 and 5 in 4625001005, all bought from private owners before 30 June. The other two hold nothing in the watch list. A roll that starts from the returns alone leaves these dwellings out.

This is where the list departs from the 2026 method, which Celestina Gallart's notes describe and which reproduces the 2026 annex exactly. Built that way, the 2027 list would carry seven sections: 4625001012 would stay on it and 0301402014 would drop off.

In 4625001012 the agency committed on 9 July to 20 dwellings sold between large holders, so it holds them from 6 November, before the year ends. In 0301402014 it committed between 15 and 24 September to 14 sales to private buyers agreed for December; those complete between 13 and 22 January 2027, so the seller still holds the dwellings on 1 January. In 4625011016 the agency also takes 17 dwellings sold between large holders, on 3 December, but the 18 that Habitatges Cornisa SL holds keep the section over the line at 26.2%.

The annex

designation_annex_2027.csv carries one row per watch-list section in the order's annex order, with the contents Article 5 requires.

Section	Municipality, district	30 Jun 2026	1 Jan 2027	
4625011004	València, Poblat Marítims	33.9%	33.3%	designated
4625001005	València, Ciutat Vella	32.4%	32.0%	designated
4625002007	València, l'Eixample	29.8%	29.3%	designated
0301401008	Alacant, districte 1	28.9%	28.0%	designated
4625011016	València, Poblat Marítims	26.4%	26.2%	designated
4625012009	València, Camins al Grau	23.4%	26.2%	designated
0301402014	Alacant, districte 2	27.4%	25.7%	designated
4625001012	València, Ciutat Vella	27.1%	24.2%	
4625002019	València, l'Eixample	25.9%	22.6%	
1204001006	Castelló de la Plana, districte 1	22.7%	22.4%	
4625005013	València, la Saïdia	21.4%	20.8%	
4625013021	València, Algirós	20.2%	20.7%	
1204003011	Castelló de la Plana, districte 3	18.0%	17.8%	
0301405003	Alacant, districte 5	18.6%	17.8%	

Large-holder share of each section's dwellings; the rule marks the 25 per cent line. 30 June 2026 as published in the bulletin. Source: quarterly returns 2024T3 to 2026T2, cadastre extract of 28 September 2026, deeds registered to 30 September 2026, Ens Públic de Patrimoni Residencial budget execution to 30 September 2026.

Notes

1. Shares are large-holder dwellings over the section's residential cadastral units (Article 2.3), rounded once to one decimal; the distance to the line is taken from the unrounded share.
2. The largest group or holder is read from the register's group links in force on 1 January 2027, by declarant and effective date, under the name the register gives it.
3. Dwellings with nobody registered are read from the latest municipal delivery for each district: September 2026, and June 2026 for València districts 11 and 12 and Alacant district 2, which the September delivery does not include. Registrations past their two-year renewal date count as lapsed.
