Referral ceiling schedule for 2027/28

Board of Trustees, June 2027. Paper from the Grants and Assurance Office. Prepared by Erica Costa, Assurance and Standards Lead, Household Relief Grant.

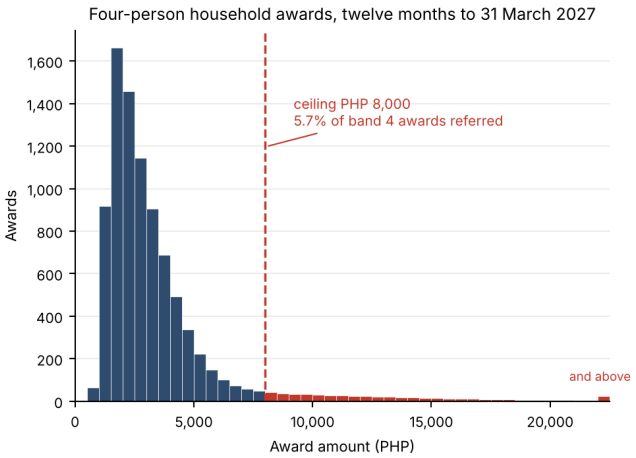

Recommendation

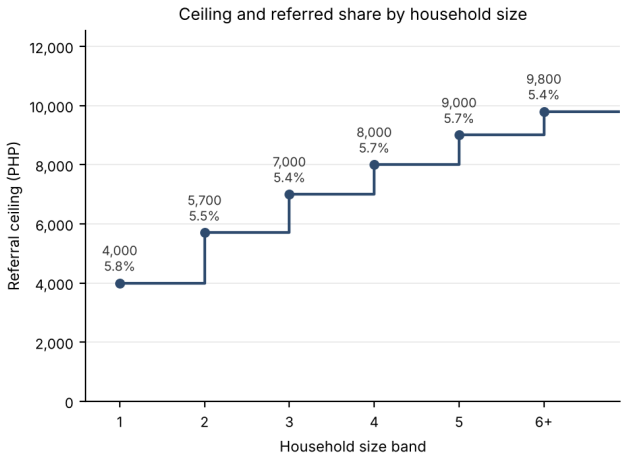

Set the 2027/28 referral ceiling for a four-person household at PHP 8,000.

The schedule below would refer 5.59 per cent of the awards the scheme resolved in the twelve months to 31 March 2027, within the 6.0 per cent the Board committed to in clause 9. PHP 7,000, the next amount down in Schedule E, would refer 6.85 per cent and is outside it.

Schedule

Band	Household size	Factor	Ceiling (PHP)	Awards referred (%)	Award value referred (%)
HH1	1 person	0.500	4,000	5.8	22.0
HH2	2 persons	0.707	5,700	5.5	21.3
HH3	3 persons	0.866	7,000	5.4	21.0
HH4	4 persons	1.000	8,000	5.7	21.7
HH5	5 persons	1.118	9,000	5.7	21.7
HH6	6 or more persons	1.225	9,800	5.4	21.1
All				5.6	21.4

What the figures rest on

The scheme resolved 49,265 awards in the twelve months, across 528 partner-band cells and 88 accredited partners. The claim returns state a total and an award count for each cell, so the average award in each cell is known exactly; the spread of awards about a partner's own average is known only from the 11,788 awards the 22 portal partners recorded one at a time in the same months. The schedule is struck on the award distribution those two together imply, and the award shape has a coefficient of variation of 0.72.

Struck instead on the distribution of the 528 partner-band averages, which carries no spread within a partner, the ceiling would come out at PHP 6,000 and would refer 8.93 per cent of awards, more than half again the Desk's agreed capacity.

The two reopened claim months, Nov-2026 and Feb-2027, are taken at their revised returns. The award value referred runs near 21 per cent in every band because the capital-item components carry far more value than count.
