Rathbroe Pension Services
Member Service Standard

Issue 6. Effective 1 April 2025. Owner: Head of Member Operations. Supersedes issue 5 of 1 April 2022.

1 Scope

1.1 This standard sets the service we hold ourselves to on member-service case work, and the rules by which the time taken on a case is measured.

2 Receipt

2.1 A case is received when the request reaches us by any channel, including the member portal. The date of receipt is the date in Irish local time on which it reaches us.

3 The service clock

3.1 The service clock runs in working days and starts on the working day after receipt.

3.2 The target for each queue is:

Queue	Queue code	Target (working days)
Retirement quotations	MS-RQ	12
Retirement settlements	MS-RS	20
Transfers out	MS-TO	15
Transfers in	MS-TI	15
Death benefits	MS-DB	25
Leaver options	MS-LO	10
Member data corrections	MS-DC	8
Investment switches	MS-IS	6
Contribution queries	MS-CQ	6

3.3 A working day is a day other than a Saturday, a Sunday or a public holiday in the State.

3.4 Days on which a case stands awaiting information from the member, or from an adviser acting for the member, are excluded from the clock. The whole working days excluded are recorded against the case.

3.5 A case is answered when the substantive response issues. An acknowledgement is not a response.

3.6 A case that has not been answered by the date the case record is extracted counts as answered later than target where the days its clock has run by that date already exceed the target for its queue, and counts as within target otherwise.

4 The ceiling

4.1 Not less than 95 per cent of the cases a queue receives in a financial quarter are to be answered within the target for that queue.

4.2 A quarter below the ceiling is reported to the Member Operations Board with the queue's own account of the cause.

Issued by Member Operations, 1 April 2025.
