## The Pensions Authority

Verschoyle House, 28-30 Lower Mount Street, Dublin 2. 17 April 2026. Our reference: SUP/2026/0418.

The Head of Member Operations
Rathbroe Pension Services

### Member service case handling: service improvement response

In the twelve months to March 2026 the Financial Services and Pensions Ombudsman upheld three complaints against the firm in which delay in handling a member's case was a ground of the complaint (FSPO references 2025-04711, 2025-09322 and 2026-00841). The firm has already given the Ombudsman its account of each case.

The Authority is not minded to take further action on the individual cases. We do require the firm to satisfy itself that its own service assurance arrangements are working, and to tell us what it will change.

Please send us, by 31 July 2026, a service improvement response covering the financial year ended 31 March 2026. The response should identify the case queue selected for the firm's next full process re-engineering review under clause 4 of its own Member Operations Service Assurance Framework, and should set out that queue's own measured performance for the year ended 31 March 2026.

The Authority does not prescribe the basis on which the firm selects the queue. We will read the response against the framework the firm has approved.

Janine Masterson
Supervision, The Pensions Authority
